DESCRIPTION

Detail-oriented Data Analyst with a background in data science and hands-on experience in data analysis projects. Also a Full Stack Python Developer skilled in Python, PHP, R, HTML, and MySQL. Eager to leverage analytical and coding skills in an entry-level role.

EDUCATION

Degree–BSC Data Science   2022-2025
GPA : 8.99

Intermediate-MPC   2020-2022
GPA : 8.90

SKILLS

Programming Languages	: Python , PHP , HTML , C , Java , R , CSS , SQL
Data Analysis Tools	: Numpy , Pandas , Power BI , Matplotlib
Database	: MySQL
Machine Learning	: Basics on Supervised Learning , Unsupervised learning
Certificates	: Full Stack Python Developer , HTML , C , Java , R , Python for Data science
Soft Skills	: Time Management , Teamwork , Communication , Problem Solving

INTERNSHIP EXPERIENCE (U-LEARN COMPANY)

PROJECT : EDA on Fraud Detection

Libraries : Numpy , Pandas , Matplotlib , Seaborn   GitHub

Key Responsibilities :

- Conducted data preprocessing and feature engineering for improved model performance.
- Conducted EDA to uncover fraud patterns and improve accuracy.

Outcome : Improved model accuracy and gained insights to better identify fraud.

PROJECTS

- **PROJECT-1 – Face Detection using M.L Library - openCV**   GitHub

  Developed a real-time face detection system utilizing the OpenCV library, capable of recognizing images for various applications. Implemented an interactive interface to enhance user experience.

- **PROJECT-2 – PHP CRUD Application with Real-Time Database Synchronization**   GitHub

  Developed a dynamic PHP based CRUD application featuring real-time database synchronization, enabling users to efficiently create, read, update, and delete data without explicit coding. Enhanced backend development skills through this project.

LANGUAGES

Languages :   English , Telugu

ACHIEVEMENTS

Participated in an Android Development Hackathon organized by Adhoc Network Tech Company. Attended a 2-day workshop on the powerful business tool - Power BI.
